

SPEAKER LUEDTKE: Chair recognizes Senator Warner.

SENATOR WARNER: Mr. President, I move for the introduction of the bill. One other bill dealing with capital construction to be introduced. This bill is a separate one involving \$345,000 to the Department of Administrative Services to meet an overcost on the development and implementation of the Nebraska Employee Information System. The Department indicated to us a couple of weeks ago, and you read perhaps in the paper, that this overrun in terms of cost has occurred for a variety of reasons. If we can have the bill introduced I assume that General File would be the place to discuss it in depth. I could do it now if somebody wishes. I'd move the rule be suspended, if that is what it requires, and the bill be introduced so it could be properly considered on General File.

SPEAKER LUEDTKE: Motion is to suspend the rules and introduce the bill. Just a motion to introduce the bill. Senator Boughn, did you wish to speak to the motion? That's a little late. I don't know, I wasn't up here. But it's a little late because that matter is being referred to the Exec Board anyway. Well we're talking about another motion before the House. I see it, yes, it's on. I think, Senator Boughn, the point was that there was no floor debate needed because the matter was to be referred directly. Once the Chambers amendment was adopted it was automatically to be referred to the Executive Board because it became an interim study. There was no need for further debate. I was not in the Chair, but I believe that was the ruling. That is the way it should be. So there is no need for any further debate. Yes, your light works. Any further discussion on Senator Warner's motion to introduce a new bill? If not, all those in favor of introducing the bill on the motion vote aye. Opposed vote nay. It requires 30 votes. Have you all voted? Record the vote.

CLERK: 31 ayes, 0 nays on motion to introduce the bill.

SPEAKER LUEDTKE: The motion is adopted. The bill is introduced.

CLERK: Read title to LB 547. Mr. President, motion on the desk.

SPEAKER LUEDTKE: Read the motion. Senator Warner, what do you wish to do with that bill? Do you want to....

SENATOR WARNER: Well it should be referred to General File.

SPEAKER LUEDTKE: Referred to the Executive Board.

CLERK: Motion on the desk, Mr. President. (Read Maresh motion found on page 1943 of the Journal).

SPEAKER LUEDTKE: Chair recognizes Senator Maresh.

SENATOR MARESH: Mr. Speaker, members of the Legislature. Before we change our order of business...I went to individual bills. It looked like this bill would have a good chance to be passed this year. Because we went to these individual bills and not considering the committee priority bills, it appears that LB 509 might not pass. This was considered several weeks ago on the consent file. It ran into trouble because it had some provision in there that three members didn't approve of. They object to the bill being on the consent file. So it was passed over. I have an amendment to
